Payments Operations — Failed Transaction TAT, Reconciliation & Dispute Handling Standard

Document ref: PAY-OPS-STD-04 | Version 2.1 | Effective 1 July 2026 | Owner: Head – Payments Operations

Training sample. This document is synthetic and was written for the Bajaj Finance M365 Copilot training (Payments batch, Oct 2026). The TAT and compensation rules in section 3 are adapted from the structure of RBI's 2019 framework on TAT and customer compensation for failed transactions, and the other thresholds are illustrative. Do not cite it as BFL policy or as RBI guidance — refer to the current RBI circular for actual obligations.

1. Purpose and Scope

1.1 This Standard sets turnaround times (TAT), reconciliation discipline and dispute handling for customer payments to and from BFL — EMI collections, repayments, refunds and bill payments — across UPI, e-NACH, card payment gateway, net banking, BBPS and wallet channels.

1.2 It applies to the Payments Operations desks and to every payment partner (switch, gateway, sponsor bank, aggregator or BBPS unit) under contract with BFL.

2. Definitions

2.1 **Exception** — a transaction where the customer's account is debited but the expected credit, confirmation or reversal has not happened.

2.2 **TAT** — calendar days, counted from the date the exception is logged (for this Standard, the Reported Date) to the date it is resolved.

2.3 **Break** — a transaction in BFL's ledger that does not match the partner's file for the same reconciliation cycle.

3. Failed Transaction TAT and Customer Compensation

3.1 **UPI** — account debited, beneficiary not credited: auto-reversal within **T+1**.

3.2 **Card (payment gateway)** — account debited, transaction not confirmed: reversal within **T+5**.

3.3 **Net banking** — account debited, transaction not confirmed: reversal within **T+2**.

3.4 **e-NACH** — debit after the mandate was revoked, or a duplicate debit: reversal within **T+1**.

3.5 **BBPS** — bill payment debited but not updated with the biller: resolution within **T+1**.

3.6 **Wallet** — refund not credited to the wallet: within **T+1**.

3.7 **Excess EMI refund** (for example, after foreclosure): credited within **7 days** of a valid request.

3.8 Beyond the TAT, the customer is compensated at **₹100 per day of delay**, credited automatically without the customer having to claim it.

3.9 Every exception is communicated to the customer by SMS within **24 hours**, quoting a reference number and the expected resolution date.

4. Reconciliation

4.1 Every partner is reconciled against the BFL ledger for each settlement cycle.

4.2 Breaks are resolved within **3 working days**. Breaks older than 3 days are reported to Head – Payments Operations daily.

4.3 Unreconciled value above **₹10 lakh** for one partner in one cycle is escalated to the Finance Controller the same day.

5. Chargebacks and Network Disputes

5.1 Evidence is submitted to the network no later than **2 calendar days before** the response due date.

5.2 A pending case with evidence not complete **3 days before** the due date is escalated to the Cards & PG lead.

5.3 Monthly chargeback win rate below **65%** triggers a reason-code review with the payment gateway partner.

6. EMI Mandates

6.1 A rejected mandate is re-initiated within **7 days**, preferably through e-NACH or UPI AutoPay rather than physical NACH.

6.2 A mandate with **2 or more bounces** in the last 3 presentations is flagged for a service call to confirm funds and the debit date. This is a service call, not a collection call.

6.3 Once a revocation is received, no further presentation is made on that mandate. A revocation received after the file cut-off is removed from the next file.

7. Payment Partner SLAs

7.1 Uptime of at least **99.9%** per month; T+1 settlement adherence of at least **99.0%**.

7.2 Any outage longer than **30 minutes** is reported within 2 hours, with a root-cause analysis (RCA) within **3 working days**.

7.3 **Two or more** SLA breaches in a quarter trigger a formal partner review before the next renewal.

8. Complaints

8.1 A customer complaint about a payment is acknowledged within **2 working days** and resolved within **30 days**.

8.2 Monthly payment complaints above **150** are reported to the Head – Customer Service with a remediation plan.

9. Reporting

9.1 A monthly Payments Operations MIS covering success rates, TAT breaches, compensation paid, reconciliation, chargebacks and partner SLAs is submitted to Head – Payments Operations by the **7th** of the following month.
